

BRUCE

STRUTTURA DIVANO

E' realizzata in pannello di stratificato di fibra di legno dura e massello di abete.

IMBOTTITURE

Le imbottiture della seduta sono realizzate in poliuretano espanso densità di 50 kg/mc "ecolife". Cuscini di schienale in densità 18 kg/mc rivestito con una fodera in cotone canalizzata e misto piuma. Schienale mobile con struttura in metallo e rivestito in poliuretano espanso densità 30 kg/mc e fibra di poliestere.

RIVESTIMENTO

Gli elementi possono essere rivestiti sia in tessuto che in pelle e sono sfoderabili.

Bruce è concepito da una serie di basi singole o quando accostate diventano componibili con degli schienali posizionabili a piacere lungo tutto il perimetro della base, come gli stessi braccioli. Gli schienali vengono forniti di serie con cuscino e poggiareni.

SOFA STRUCTURE

The structure is made of hard wood fiber laminated panel and solid fir wood.

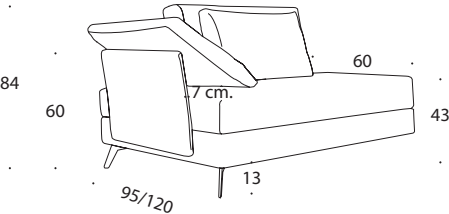

PADDING

The seat cushions are made of 50 kg/m³ density "ecolifa" expanded polyurethane. The backrest cushions are 18 kg/m³ density, covered with a channeled cotton lining and feather blend. The backrest is movable, with a metal structure and covered in 30 kg/m³ density expanded polyurethane and polyester fiber.

UPHOLSTERY

The elements can be upholstered in both fabric and leather and are removable.

The Bruce sofa is conceived from a series of single bases that, when placed side by side, become combinable with backrests that can be positioned as desired along the entire perimeter of the base, just like the armrests. The backrests are supplied as standard with a cushion and lumbar support.
